Professional Experience

Full-Stack Developer 05/2025 – Present | Kocaeli, Turkey
Alutem

- Sole developer of the internal operations platform used by company management (Next.js, TypeScript, Supabase, MUI): searchable die catalog, production module, pricing engine, role management, analytics. Turned a 1-2 hour manual lookup and calculation task into an instant filtered query.
- Owned the Postgres schema and business rules: 55 migrations with rollback scripts, per-role RLS policies, transactional RPCs, audit triggers; unit-tested pricing and cut-list logic; GitHub Actions CI (lint, typecheck, build, tests).
- Built a Railway cron that syncs 89 products from a supplier XML feed into the Ticimax store via a custom SOAP client, with live progress over Supabase Realtime, replacing 2-3 hours of daily manual work.

Freelance Web Developer 08/2026 – Present | Istanbul, Turkey
Self-employed

- Yurtsever Emlak (yurtseveremlak.com): a 5-office real-estate agency site with per-office pages, team, video showcase and a server-action contact form (validation, anti-spam, KVKK consent, Resend email). Next.js, Tailwind, Vercel, Cloudflare. Live.

Frontend Developer (Contract) 01/2026 – 03/2026 | Remote
Renia Developers

- Built ~70% of the UI for yenigunemlak.com, a live real-estate platform, as the only frontend developer in a 3-person async team (Next.js App Router, Tailwind, Zustand, JWT cookie auth): listing search with filters, map-based search (Google Maps, Leaflet), listing and category pages, and a full admin panel with listing CRUD, customers, contracts, SMS and Search Console statistics.

Projects

Bozukkart 08/2026 – Present
Real-time multiplayer party game · bozukkart.com

- Room-based Cards Against Humanity clone: server-authoritative rounds with phase timers, private hand state, reconnect grace period, Redis persistence with restore on boot, server-side bots, Turkish deck, i18n-ready UI. NestJS + Socket.io + Redis, Next.js; serializer and smoke tests; live on Vercel + Railway.

TeamBoard 01/2026 – 04/2026
Multi-tenant project management SaaS

- Kanban, workspaces, role-based access, Stripe subscriptions, R2 attachments. NestJS, Prisma, Postgres, Next.js, Turborepo; Playwright E2E, CI.

Skills

Languages & Frameworks
TypeScript, JavaScript, React, Next.js, NestJS, Node.js, Express, Tailwind CSS, Material UI, Socket.io

Data & Infrastructure
PostgreSQL, Prisma, Supabase (RLS), Redis, Docker, GitHub Actions, Vercel, Railway, Playwright, Claude Code

Education

Computer Engineering 09/2020 – 09/2024 | Konya
Necmettin Erbakan University
